WHAT'S INSIDE?

In this folder you'll find **STATIC** and **ANIMATED**

POWERED BY GIPHY

attribution logos to include in your app

STATIC FOLDER

Included are small (100-200px width) and large (640px width) attribution logos for either light or dark backgrounds.

The small attribution logos are optimized for mobile screens.

ANIMATED FOLDER

Included are **CUSTOMIZABLE PSDs** along with a handy "How to Customize" ReadMe explaining how to custom fit the animated logos to any size on any background. We prefer the use of animated logos if possible.

There's also a folder that includes a badge style attribution logo.
